[HUMAN APPROVAL REQUIRED]
Customer: David
Request: I need a refund for my annual subscription.
Draft Response: Sure, I can help with that. For an annual subscription, if you are eligible for a full refund within 30 days of your initial purchase due to any reason, we will process it according to our policy.

However, after the first 30 days, refunds on annual subscriptions are only issued on a pro-rated basis if there has been significant downtime that was our fault and exceeds more than 48 hours in a given month.

If you believe your situation qualifies for a refund based on these conditions, please submit a refund request through our support system. It will then be reviewed by management.

Please note that all refund requests must go through the Billing department and require approval from management before any action is taken.
